

CARE4 MODULE NAME: Deficiencies

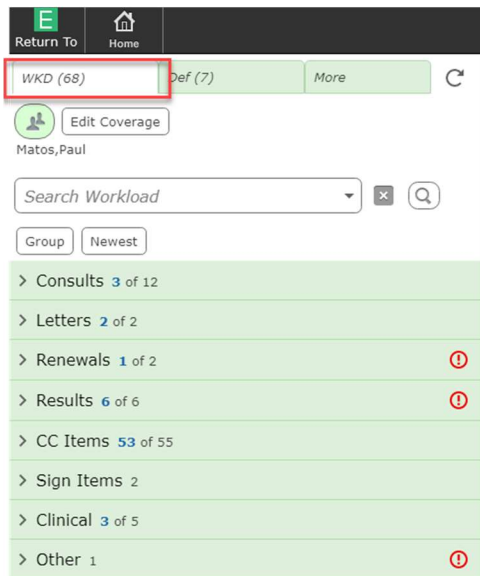

Overview

Using the workload, providers can manage their deficiencies (any outstanding documentation that needs to be addressed by a provider). Deficiencies can be managed through the workload.

- Deficiencies are accessed by clicking on the  button from the Web Acute Status board / Web AMB black navigation banner.

- Select **Workload**.

- The button will take you to items within your workload. Select **Def** to access the deficiencies.

Return To	Home	WKD (68)	Def (7)	More	Refresh
