

CARE4: EDM Trackers

GBGH

Overview - trackers group patients by Location or Status i.e., Received, Triage, Registration Status, and Departure/Discharge.

- The default tracker that the ED nurse starts from is ED ALL
- Click on Lists along the Right side of the screen to choose different trackers

ED clerks have a registration tracker which has all the patients who have been triaged and now are ready to be registered. LWBS will also show on the Registration tracker.

- My List – the patients you add to your list/sign up for and will stay on this list as Discharged until you remove them
- Zone Trackers – rooms designated by colours/zones in the department
 - Blue Zone – BZ01-05, SAFE01 and SAFE02
 - Red Zone – RZ01-RZ07, EENT, LGN, GYNE, ISO
 - Yellow Zone – YZ01-YZ02, OL01-02, HL01-05
 - Green Zone – GZ01-GZ05, GZChairs
- Triage – tracker contains patients who have been Received, (by nurse or via kiosk), Triage or patients that have been Received as an EMS call prior to Arrival
- Waiting – all patients who are Registered and are in Waiting Area and have not been put into a Room and moved to the To Be Seen Status
- Discharged – Patients who have been discharged – they will fall under the date of the initial registration i.e., Registered in ED on September 11, 2021 at 2210 and discharged on September 12 at 0610 would be found by scrolling back through the previous date or clicking on the calendar to select the date of their registration.
