# CARE4 MODULE NAME: PCS and EDM
## HOURLY Intake and Output

NOTE: IV fluids are all on the MAR and Blood Products are in TAR

Options:

Click on and fill out the intake and output queries every hour

Click on the intervention, change mode to flow sheet and document intake and output queries every hour

All I&O from the IO intervention and the IV fluids from MAR and the Blood volumes from TAR – show totals in the Intake and Output panel of the EMR
