CARE4 MODULE NAME: Web ED and Web Acute How to Access Historical Information

To access the historical link, physicians have two main options.

Currently, the historical link button under the patient's header prevents physicians from opening any document that is a PDF.

Return	To Home	Chart D	ocument Orders Discharge	//a i Sign	l 🗾 Workload	⊞ 🏟 🛞 _{Menu}
	Diagnostics	Provider Notes	Nurse/Allied Health	Medications	C	0
History & Problems		Administrative	Other Clinical			
ſ	Summary	Activity	Flowsheets	Health Mgmt		*
۲	Summary			★	DEP ER, RV ORAI	VGE
• Widg	et data for 25/09/2021 (DEP ER)				8.2kg	
	Illetin Board	1	· · ·	Most Recent	 Count (Concept); 	
	No Data to	Display	✓ Serology		Cough/Congestio	Code Status Not
Special Indicators No Data to Display				y P	His	Ordered No Hx Avail
			✓ ● Provider Notes Last 24 Hrs		Search Chart	

When this opens the old EMR, the physician navigates to the "Notes" section; Open any report

If any of the notes open a PDF, an error message is produced and you cannot access the information this way. There is fix from the vendor – MEDITECH – being implemented soon
