

CARE4 MODULE NAME: EDM

RETURN ED VISITS FOR TREATMENT/TESTS

- Physician will decide the need for patient to Return to ED for Treatment/Tests
- Physician will write on a doctors order form the Instructions and Orders required when the patient returns to ED
- The paper Order is placed into a Binder (this will be site specific) for the Triage Nurse to locate on the patients next visit
- Patients returns to ED they are Triage and Registered with a new ED account
- Triage Nurse/Primary Nurse can put in the Orders as Written (these orders will not flow to the ED Physicians order queue to be signed as the nurse already has the order on Paper)
- Nurse will still put the patient up To Be Seen when ready
- On call ED Physician will assess the patient and decide if further orders are needed.
- Once treatment is completed patient is discharged home

*** Any outpatient CT/US that can be booked will be... but if no Physician to follow up with results patients are directed to come back to ED for Results there are Triage and Registered the same as all ED patients***
