

CARE4 MODULE NAME: Scanned Documents

To view scanned documents, select the Chart button from the navigation toolbar. Scanned documents can be found in individual note tabs such as provider, allied health, nursing and diagnostics. The activity tab will also display scanned documents. Scanned documents will display with a camera and document icon. Clicking on the icon opens the Activity Reports overlay with the scanned document.

MEDICAL DIRECTIVE: Cancer Program Nurse Practitioner (NP)
DEPT. Simcoe Muskoka Regional Cancer Program SUPERCEDES: January 28th, 2013
ADMINISTRATIVE AUTHORITY: Medical Advisory Committee Date: March 11, 2021

NAME AND DESCRIPTION OF TREATMENT:
The following medical directive authorizes the Nurse Practitioner (NP) in the Simcoe Muskoka Regional Cancer Program (SMRCP) (outpatient and inpatient settings) within the Royal Victoria Regional Health Centre to initiate and manage care for adult patients who are under the care of an oncologist or are referred for oncology consultation. The SMRCP NP shall initiate:

- Implementation of diagnostic imaging procedures for the purposes of diagnosing, staging and restaging, and monitoring cancer related treatment and survivorship [See Appendix I for diagnostic tests and diagnostic imaging not currently authorized to NPs].
- Admit to hospital; that incorporates the patient's current medication therapeutic plan,
