

CARE4 MODULE NAME: PCS (eMAR)

GIVING MEDICATIONS AT UNSCHEDULED TIME

Document **Unscheduled** can be found on bottom footer buttons of eMAR – will be greyed out if unavailable

Unscheduled time may be used for meds that

- Do not have specific times assigned (I.e., like a PCA/PCEA – continuous infusion) (Not PRN dosing)

02/09/2021 12:13 Unverified Acknowledged	EPINEPHrine 4 mg In sodium chloride 0.9 % 246 ml @ Titrate IV TITR SCH Current Dose: 1 mcg/kg/min, 287.46 mls/hr Bag Volume: 250 mls Duration: Titrate Dosing Weight: 76.657 kg Trade: Adrenalin NaCl 0.9% Rx#: U00060573	Unsch + Last Admin	287.46 mls/hr 13:05 JQ End: 11/09 13:58
--	---	------------------------------	--

On eMAR it will be noted that an Unsch dose was given – users can open and see what time it was administered at. PHA can view as well. When user opens collapsed section for Unsch – it will show exact time given by staff. Under Administration Comment section may be used.

- Has routine times – but dose being given at unscheduled time

07/07/2021 14:10 Unverified Acknowledged	furosemide 80 mg IV BIDDIOR SCH Trade: Lasix Rx#: U00021095	09:00 14:00 Unsch + Last Admin	-1d -23h -4h 80 mg 13:03 JQ
--	--	--	--

If medications are being administered at an off scheduled time preferable for users to click into schedule and use **comment and **adjust schedule once**. Comments can be seen by other users as to why given off schedule
