

CARE4 MODULE NAME: ACUTE/ED/AMB

Printing Home Medications List

ACUTE/ED Module

To print the home medications list from WEB ACUTE or WEB ED navigate to the Home Medications Reconciliation routine by clicking the Home Meds Widget header on the Reference Region.

The screenshot shows the patient summary page for Sally Test. The right-hand sidebar contains several widgets: Allergies, Problems, Home Meds (highlighted with a red box and a mouse cursor), Medications (Instructions), and PFSH. The Home Meds widget shows a list of active medications, including amlodipine 5 mg tablet and 0.5 mg PO DAILY #1 Tab.

To print a copy of the Home Medications Report, click the Print button

The screenshot shows the 'Home Meds (ROV TEST - TEST)' form. The 'Home Medication' section is expanded, showing a list of medications. The 'Print' button at the bottom right is highlighted with a red box and a mouse cursor.

Click Print once again

The screenshot shows the 'Print' dialog box. The 'Home Medication Report' option is selected and highlighted with a red box. A mouse cursor is pointing at the 'Print' button at the bottom of the dialog.

AMB Module

To print the home medications list from WEB AMB navigate to the Active Medications Reconciliation routine by clicking the Medications Widget header on the Reference Region.

The screenshot shows the WEB AMB interface for patient Amber She/Her/Hers. The 'Medications' widget is highlighted with a red box. The patient's active medications list includes:

- ascorbic acid (vitamin C) (Vitamin C) 500 mg PO DAILY
- ascorbic acid (vitamin C) (Vitamin C) 500 mg PO DAILY
- black cohosh 500 mg PO BID
- clonazepam 2 mg DAILY
- digoxin 125 mcg PO BID
- levothyroxine 25 mcg PO DAILY
- lorazepam 1 mg PO BID PRN
- metformin 500 mg DAILY

On the Active Medications Reconciliation screen click this icon  and select the Print Active Med List or to preview select Preview Active Med List.

The screenshot shows the 'Active Med List' section of the Active Medications Reconciliation screen. The 'Print Active Med List' button is highlighted with a red box. The list of active medications is as follows:

Medication	Date	Status
ascorbic acid (vitamin C) 500 mg tablet (Vitamin C) 500 mg PO DAILY	06/01/2022	✓
ascorbic acid (vitamin C) 500 mg tablet (Vitamin C) 500 mg PO DAILY	23/12/2021	✓
black cohosh 500 mg capsule 500 mg PO BID	10/12/2021	✓
clonazepam 2 mg tablet 2 mg DAILY	10/12/2021	✓
digoxin 0.125 mg tablet 125 mcg PO BID	17/01/2022	✓
levothyroxine 25 mcg tablet 25 mcg PO DAILY	17/01/2022	✓
lorazepam 1 mg tablet (Ativan) 1 mg PO BID PRN	17/01/2022	✓
metformin 500 mg tablet 500 mg DAILY	03/12/2021	✓

On the Print Active Med List print overlay select appropriate printer and click Apply

The screenshot shows the 'Print Active Med List' print overlay. The 'Apply' button is highlighted with a red box. The overlay includes a 'Show Printer Lists' checkbox (checked), a 'Printer List' dropdown menu, a 'Search Printer' input field, and a 'Copies' input field set to 1.
