

MEDITECH UPDATE – Acute/ED/AMB Module

New Expense Reports

We have activated 13 new reports that have been requested within Expense. This will help in identifying a particular report for your program for easy access when viewing and placing a document for a patient. These are now live in Expense and can be used.

What's Changing in MEDITECH?

We have activated 13 new reports available to be picked under the Document routine. Below is the list of the new reports available to be used.

RVH – Specific Reports:

Palliative Clinic Visit ☆	Home Visit Clinic Note ☆	Well Breast Clinic Report ☆

- Pain Clinic Consultation
- Pain Clinic Procedure Report
- Discharge Summary Death Note
- ERCP Report
- Endoscopic Ultrasound Report
- Capsule Endoscopy Report
- Other Endo Procedure Report

Why Is This Change Happening?

To allow new reports to be picked for a specific department. This will help in identifying a particular report within a patient's chart faster.

How will this change affect me?

You will be able to pick the 13 new reports as an option to be using when creating a document for patient for that particular option that has been generated.
